

GRADUATE PRODUCTION ENGINEER

Job description

Established in 1987, Sanko Gosei UK LTD is a first tier supplier in the automotive industry, producing both interior and exterior moulded and assembled components.

We are looking to recruit a Graduate Production Engineer, to work within the Engineering Department and facilitate the effective & efficient manufacture / assembly of moulded components.

Objectives:

- To maximise/ optimise efficiency of all moulding and assembly processes.
- To create the relevant documentation to support all processes.

Duties to be performed:

- To assist with the design and scope of secondary operation equipment.
- To commission second op equipment into production and validate effectiveness.
- To train production associates in the use of moulding/assembly equipment.
- To simplify and standardize production lay out.
- To understand the operation of the moulding process and to identify TPM requirements.
- To define TPM activities and document maintenance practice on equipment.
- To train production associates in TPM activities.
- To collect and analyse data in support of improvement activities.
- To understand plant capacity constraints and complete customer capacity verification documents.

Qualifications/Experience:

- Mechanical Engineering Degree.

Job Types: Full-time, Permanent, Graduate

Salary: From £27,000.00 per year

Benefits:

- Company pension
- Cycle to work scheme
- On-site parking
- Sick pay
