

MISSION STATEMENT

Sanko Gosei UK Ltd is a customer focused company in the manufacturing of plastic injection moulded products as a Tier 1 to the automotive industry. We can be relied upon to produce and deliver high quality products that meet our customers' specifications and requirements. We offer innovative processes based on sound technological knowledge and expertise built up over a number of years.

Our mission is to maintain a friendly, fair, creative and clean work environment which respects diversity, new ideas and hard work. We have respect for all our colleagues and want them to stay safe and healthy in the workplace. Our objective is to meet the requirements of our shareholders, and to finance continued growth and development of quality products and our workforce.

AIMS

- To provide a total plastic solutions to our customers
- To meet the financial requirements of our shareholders
- To maintain our manufacturing performance at World Class level
